DEALERS IN SMALL LABORATORY ANIMALS

This partial list includes the names and addresses of some institutions, firms, and individuals who purchase guinea pigs, white mice, white rats, hamsters, and rabbits for experimental and other purposes. No discrimination is intended if the names of any have been omitted. The names have been collected from various sources, and the Department assumes no responsibility for the integrity or reliability of the organizations and individuals mentioned. Individuals raising these animals should also contact the large hospitals and laboratories in the immediate area, as frequently such institutions are desirous of dealing with a dependable source close at hand. It would be well to review other small stock publications. The Department of Agriculture does not purchase these laboratory animals and has none for sale or free distribution.

<u>District of Columbia</u>	Surgeon General's Office, Supply Division, Washington, D. C.
